2. CONTEXTUALIZATION OF THE SUBJECT			
Previous knowledge needed to	Level B1 of English language		
follow the subject			

3. OBJETIVES OF SUBJECT

- Report positive and negative behaviors to health.
- Raise awareness on health promotion and disease prevention.
- Promote healthy lifestyles and help change negative health behaviors, contextualized in a globalized world marked by ICT.
- Enable people with whom they work, develop skills that enable them to make conscious and autonomous about their own health.

4. SKILLS TO DEVELOP IN THE SUBJECT

4.1 SPECIFIC SKILLS RELATED TO THE SUBJECT-MATTER

- E1. Recognize biopsychosocial factors determinants of health and disease.
 - E2. Relate the concepts of wellness, health and disease.
- E3. Promote health and prevent disability / illness, at each stage of the life cycle

4.2 CROSS SKILLS

T2. That the students can apply their knowledge to their work or vocation in a professional manner and have competences typically demonstrated through devising and sustaining arguments and solving problems within their field of study.

4.3 NUCLEAR SKILLS

NCL1. Positive attitude to multiculturalism and diversity. Understand and tolerate different cultural contexts, using their values and potential, always respecting the customs and ways of thinking of people from other countries, cultures and races, and to promote equality and universal accessibility principles and respect for the rights human and Fundamental Freedoms.

Block 1	Sustainable Develop	Sustainable Development and Health			
Credits	Hours of interaction with professor	Autonomous work hours	Planned teaching weeks		
1	5	15	1		
Description of contents of the block					

- The Environment as public and globalized Good.
- Climate change: The World, Europe and Spain.
- My foot print: energy, food, wood, water...
- Alternative: Personal Sustainable Development.

Block 3	Mindfulness for heal	Mindfulness for health			
Credits	Hours of interaction with professor	interaction with work hours teaching			
1	5	15	1		

Description of contents of the block

Mindfulness is a way of attending to what is happening in our lives in the present moment, what is really is. It Will not eliminate the pressures of the life, but with practice it can help us take note of knowing how to wait or stop, mainly to the usual negative reactions resulting from daily stress.

What is mindfulness: Theory and practice.

Our experience will have the goals to:

- Connect with your body.
- Be fully present and alive in this moment.

Taking into account the three fundamental elements of mindfulness and the myths and truths.

6. METHODOLOGY FOR THE CLASSROOM					
Interaction with teacher and Center.					
Session masterful ☑	Discussion and sharing ☑	Exposition by students ☑			
Group dynamic techniques ☑	Teamwork ☑	Simulation exercises			
Case studies □	Problem-based learning	Lab practice			
Portfolio	Project work □	Solving problems			
Cine-forum	Analysis of documents ☑	Conferences □			
Practical application Activities ☑	Workshop practices □	Search for information and documentation ☑			
Scheduled tutoring ☑	External activities	Other			
Description of Method	ology				
The module will be followed on a semipresencial mode. The theoretical material is available on the ON LINE platform MOODLE and classes will be devoted to the most practical matters. Lesson will be dynamised with group techniques and teamwork and discussions and sharing of ideas will be promoted. Students must participate in MOODLE as well as in the embodiment of a short film made by groups of different nationalities. Students must also analyze complementary readings.					
Autonomous work					
Work and individual tasks ☑ Teamwork ☑					
-	Study and preparation of the subject Complementary Reading Ø				

The independent work of the student is expected to analyze individual readings, as well as its contribution on MOODLE that will reflect and discuss the contents of each of the sessions. Likewise, it should create a short film with partners of different nationalities.

Description of prevision of autonomous work by student

7. WORKLOAD	DISTRIBUTION	Hours	Percentage
	Theoretical content	25	40 % (60 h)
Interaction	Practical content	25	
with professor	Scheduled tutoring	4	
	Assessment tests	4	
	Individual work	30	
Autonomous	Teamwork	30	60 %
work	Study and preparation of the subject	20	(90 h)
	Complementary reading	10	
Total charge of	working hours:	150h	

8. ASSESSMENT						
Techniques, instruments and percentages.						
Instrument	Evaluated skill	Percentage of final mark	Instrument	Evaluated skill	Percentage of final mark	
Exam.			Exam. Development test.			
Reading (analysis)			Individual work. (participation in MOODLE)	E1, E2, E3. T2, CN1.	Tasks 30% Interaction with peers 10%	
Teamwork			Exposition of work. Teamwork.	E1, E2, E3. T2, CN1.	30%	
Portfolio			Participation			
Attendance	E1, E2, E3. T2, CN1.	30%	Study of clinical cases.			

Description of the assessment process.

There are two basic assessment tools in this module: participating in moodle, with a weight of 40%, defined as continuous assessment where students must reflect and discuss the contents of each of the blocks and sessions (individually 30% and also in interaction with rest of pupils 10%). Secondly students should create a short-film with partners of another nationality, as a final evaluation that will analyze some contents of the module and assess the degree of understanding and assimilation of contents. This will be the 30% of the final grade.

It will be also assessed the attendance at sessions (30%) as this will be the most practical part of the different blocks of contents, which is an important complement to face-to acquire the skills described.

9. SUMMARY TABLE OF THE PLANNING TEACHING
